

**Leather to Advanced Semi-Conductors:
Lessons Along the Commercialization
Pathway**

*Dr. Jeffrey S. Downey / Qnity Electronics
Kingston Technology Centre Site Director
Canada Innovation Director
Thursday, January 15, 2026, 2:30 pm
Dupuis Hall, Room 217*

The Kingston Technology Centre (KTC) is Qnity's Centre of Excellence for process development and scale-up. Its primary purpose is to deliver innovation, value creation, and growth for Qnity businesses by reducing risk, cost, and cycle time of commercializing new technologies. Qnity Electronics is an independent company separated from DuPont November 1st 2025.

In this talk, we will describe what KTC does and the vital role it plays in enabling profitable and environmentally responsible growth through scale-up and commercialization of new technologies. We will provide critical insights and lessons learned along the commercialization pathway as we dig into the unlikely intersection of two unrelated industries: Leather and Advanced Semi-conductors
